Official Notice: Immunization Requirements for Oklahoma State University Students

Oklahoma state law requires that all new students who attend Oklahoma colleges and universities for the first time provide proof of immunization for certain diseases. If you cannot verify your immunizations you will need to be re-immunized. Medical, religious and moral exemptions are allowed by law and such requests must be made in writing using the OSU Certificate of Exemption form available at UHS.okstate.edu. The requirement shall not apply to students enrolling in courses delivered via the Internet or distance learning in which the student is not required to attend class on campus.

Acceptable documentation of immunizations includes any of the following:
Signature of a physician or nurse on this form, page 4, verifying the accuracy of submitted information.
Copies of shot records.
Copies of medical records.
Copies of school health records.
Copies of laboratory test results demonstrating immunity.

Specific information regarding immunization for meningitis:
Oklahoma Law requires that all new students living in campus housing be provided information regarding meningococcal disease and the availability of a vaccine that may prevent meningitis. This information will be sent from OSU Residential Life. As part of the housing contract, the student, (or parent in the case of a minor), will attest that he/she has either received the vaccine or chosen not to be immunized against meningitis. No additional documentation of this vaccination is required. This is part of the housing contract.

FAILURE TO COMPLY WITH THESE REQUIREMENTS WILL RESULT IN A HOLD BEING PLACED ON FUTURE ENROLLMENT

All required immunizations are available at University Health Services. Certain students are also required to comply with OSU requirements for tuberculosis screening. This policy is explained on page 2 of this form.

Tuberculosis Screening

Who must comply?

- Students currently holding a visa from the U.S. Immigration Service
- A U.S. student who has resided outside the U.S. for >8 weeks continuously
- Students with a health/medical condition that suppresses the immune system
- Students with known exposure to someone with active Tuberculosis disease

*If any of these apply to you, you will need to comply with the Tuberculosis screening requirement. For other students, this is a recommendation.*

If the results of the screen indicate a risk for Tuberculosis, you will need to be tested. This test will only be accepted if done at University Health Services. The student is responsible for the cost of the Tuberculosis blood test.

Tuberculosis Testing Procedure

Students who are required to be screened for Tuberculosis should report to University Health Services, 1202 Farm Road, Stillwater OK, 74078. *If you have been treated for Tuberculosis disease in the past, provide a medical record indicating successful treatment for Tuberculosis or TB.*

Please note: Having received the BCG vaccination does NOT exempt you from the screening requirement. A chest x-ray does not satisfy the testing requirement.
